Read the case study below about a problem:

Two months ago, Mr. Burns opened a new restaurant near the university. He called it the Student Grill. Mr. Burns had wanted to open a restaurant for several months, but he was waiting for the right location. He was very pleased when he was able to rent the space near the student center. All the students would see his restaurant and eat there. The rent was very expensive but he thought it would be worth it.

Since he wanted to open his restaurant quickly, he hired the first people he could find to do repairs and decorating. He ended up overpaying the workers because he wanted to get the job done as quickly as possible.

When the time came to open, he didn’t have enough money for advertising. However since his restaurant was so close to the university, Mr. Burns was certain his restaurant would do well even without advertising. He hired two waitresses to work for him. He couldn’t afford professional cooks, so he hired several students to do the cooking. Unfortunately, the competition was very intense. After two months, his restaurant was failing. One waitress quit and the number of customers was decreasing.

I. Writing an Introduction

1. Summarize the problem IN YOUR OWN WORDS

__________________________________________________________________________________________________
__________________________________________________________________________________________________
__________________________________________________________________________________________________
__________________________________________________________________________________________________

2. Think of one way to explain WHY this problem is serious or important

__________________________________________________________________________________________________
__________________________________________________________________________________________________
__________________________________________________________________________________________________
__________________________________________________________________________________________________
3. Write one or two sentences that would make someone interested in reading about this problem

__________________________________________________________________________________________________
__________________________________________________________________________________________________
__________________________________________________________________________________________________
__________________________________________________________________________________________________

II. Writing a Body

4. Think of three solutions to Walton’s problem. Write them below briefly:
   a. __________________________________________________________________________________________
   __________________________________________________________________________________________

   b. __________________________________________________________________________________________
   __________________________________________________________________________________________

   c. __________________________________________________________________________________________
   __________________________________________________________________________________________

5. For each solution, think of one supporting reason why it is a good idea, explanation on how to use it, or an example of how it will work:

SOLUTION a
